EDUCATION

Rajiv Gandhi University of Knowledge Technologies

Computer Science and Engineering(B.Tech) - 8.2 CGPA (82%)

Srikakulam, AP

Nov. 2021 – May 2025

Rajiv Gandhi University of Knowledge Technologies

Pre University Course - 8.2 CGPA (82%)

Srikakulam, AP

sept. 2019 – Oct. 2021

Zilla Parishad

Secondary Education - 9.8 CGPA

Amalapuram, AP

Jun. 2018 – Apr. 2019

TECHNICAL SKILLS

Languages: Java, Python, JavaScript

Database: SQL, MySQL

Frontend / Tools: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js (Basics), Rest APIs

Dev Tools: Git, GitHub, Chrome DevTools

Concepts: SDLC, DBMS, OS, Data Structures and Algorithms(JAVA), Object-Oriented Programming(OOP), SOLID Principles

Soft Skills: Analytical Thinking, Communication Skills, Proactive Attitude, Team Collaboration

PROJECTS

Non-Invasive Blood Group Prediction System | Python, NLP, CNN, Tensorflow, HTML, CSS, JavaScript, Flask

- Developed a CNN based on LeNet Architecture to predict blood group from fingerprint patterns, achieving 76% accuracy.
- Automated image pre-processing pipeline using OpenCV (Histogram Equalization, Grey Scaling) and Data Augmentation.
- Built a secondary classifier to validate fingerprint image quality before processing.
- Designed a full-stack Flask web interface with blood transfusion compatibility logic and nutritional recommendations.
- **Project Link:** [View on GitHub](#)

Air Pollution Mortality Prediction | Python, NumPy, Pandas, Matplotlib, Scikit-Learn, Regression

- Built a predictive system using Linear Regression to analyze global death rates attributable to air pollution.
- Created a data pipeline to clean and prepare records – handling missing values and organizing by socio-demographic index.
- Validated model accuracy using MAE and visualized trends through custom Seaborn heatmaps.
- **Project Link:** [View on Google Drive](#)

EXPERIENCE

Citi ICG Technology Software Development Job Simulation on Forage

Apr – 2026

- Completed a job simulation involving hypothetical tasks to improve Citi's loan management system and stock market risk reporting
- Created a state diagram of the loan management process using the Unified Modeling Language (UML)
- Researched potential machine learning systems to assess credit risk and provided recommendations for next steps
- Used Java to build an internal tool visualizing stock market risk in real time - applying OOP design and iterative development practices.

ACHIEVEMENTS

- Elite Certification – Cloud Computing, NPTEL(IIT Kharagpur)
- Solved 400+ problems on LeetCode

LEADERSHIP EXPERIENCE

Samvedana - Nirman Code

Coordinator

- Led a volunteer team to manage logistics and seating for a university-wide coding event.
- Created DSA-based problem sets and resolved real-time technical issues to ensure zero downtime.

Farewell - Sports

Coordinator

- Planned and executed a farewell sports tournament with indoor and outdoor activities.
- Managed participant registration, venue scheduling, and resource allocation.

CERTIFICATIONS

- Citi ICG Technology Software Development Job Simulation – Forage
- Design and Analysis of Algorithms – Udemy
- JavaScript – Linked Learning
- Python Basics – HackerRank
- MySQL Basics & Intermediate – HackerRank
